\*The 2017 Average Annual Indicative Fee is calculated on the assumption that where a course allows students to enrol in general elective units, students will enrol in a field of education that is broadly similar to the field of education of the majority of the core units of that course. Actual fees may vary from the annual indicative fees quoted in the table above.

<sup>+</sup>Commencing mid-year will increase duration by approximately 1 semester.

<sup>#</sup>Due to the nature of the course design, actual fees will vary greatly from year to year.

Nursing - Year 1 fees are anticipated to be approximately \$26,055; Year 2 fees are approximately \$33,480 per year and Year 3 fees are approximately \$26,145 per year.

Vet - Year 1 fees are anticipated to be approximately \$29,870; Year 2 and Year 3 fees are approximately \$49,440 per year; Year 4 and 5 fees are approximately \$83,430 per year.
